AIR FUEL SURCHARGES

SIZE & WEIGHT RESTRICTIONS

To ensure our network can operate freely and efficiently, we must restrict the size of the pallets and parcels passing through it. The below highlights what limits are in place as standard - please note that where restriction information here contradicts information within the Service Level Agreement Order Form, the Service Level Agreement Order Form will prevail.

Cubing calculations

Road Cubic chargeable kg = $H \times L \times W \text{ (cm)} / 3000$
 Air Cubic chargeable kg = $H \times L \times W \text{ (cm)} / 4000$
 Final mile services Cubic chargeable kg = $H \times L \times W \text{ (cm)} / 5000$
 You are charged the greater of dead weight or calculated volumetric weight where the calculations are shown above.
